

EDUCATION

Universal College of Engineering (Mumbai University) Bachelor of Engineering – Artificial Intelligence & Machine Learning; GPA:	Maharashtra, India June 2022 - May 2026(Expected)
Ismail Yusuf College of Arts, Science & Commerce Higher Secondary Certificate (HSC) - PCM; Percentage: 67.83%	Maharashtra, India June 2021 - Mar 2022
ABS International School (CBSE) Secondary School Certificate (SSC) - Mathematics; Percentage: 84.8%	Maharashtra, India June 2019 - Mar 2020

SKILLS SUMMARY

- **Languages:** Python, HTML & CSS, SQL, JavaScript
- **Frameworks:** Pandas, Numpy, Matplotlib
- **Tools:** AWS, Google Cloud, MongoDB, MySQL, SQLite
- **Platforms:** Jupyter Notebook, Visual Studio Code, Google Colab
- **Soft Skills:** Teamwork, Critical Thinking, Problem Solving, Communication, Time Management

WORK EXPERIENCE

AI/ML Engineering Enthusiast Self-Driven Learning	June 2022 - Present
<ul style="list-style-type: none">◦ Applied machine learning and data science concepts through academic and independent projects.◦ Used Git and GitHub for version control and maintaining clean code practices.◦ Built a solid foundation in AI pipelines, including data preprocessing, model training, and performance evaluation.◦ Regularly participate in data challenges and open-source projects on platforms like Kaggle.	

PROJECTS

YouTube Transcriber & Q&A Web App	Jan 2025 – Mar 2025
<ul style="list-style-type: none">◦ Designed a web application to transcribe YouTube videos and generate context-aware Q&A responses.◦ Leveraged speech-to-text technology and NLP models to enhance video accessibility and user interaction.	
Desktop Voice Assistant (DVA)	Aug 2024 – Dec 2024
<ul style="list-style-type: none">◦ Developed a voice-operated assistant to perform system-level commands and automate daily computer tasks.◦ Integrated libraries like SpeechRecognition, pyttsx3, and NLTK for seamless human-computer interaction.	
Weather Forecast App	Mar 2024 – May 2024
<ul style="list-style-type: none">◦ Engineered a responsive weather web app using OpenWeather API and real-time geolocation services.◦ Prioritized user experience with an intuitive UI and mobile-friendly design.	

CERTIFICATES

Google Cloud Career Launchpad – Cloud Engineer Track	April 2025
<ul style="list-style-type: none">◦ Gained hands-on experience with GCP services including Compute Engine, IAM, and Cloud Storage.◦ Built and deployed containerized apps using Kubernetes basics and CI/CD practices.	
AWS Academy Cloud Architecting – AWS Academy	April 2025
<ul style="list-style-type: none">◦ Completed a 60-hour curriculum covering core AWS services like EC2, S3, RDS, and VPC.◦ Designed scalable, cost-effective cloud architectures following industry best practices.
